#### Description

RENEWAL OF ANTI VIRUS SOFTWARE LICENSES SUPPORT FOR THE VIRUS PROTECTION OF COMPUTER ASSETS OF THE BUREAU OF THE TREASURY

#### BRIEF DESCRIPTION:

This project calls for the renewal of the Anti-virus software licenses support for the endpoint protection of BTr desktops and laptops Bureauwide.

#### ANTIVIRUS SOFTWARE LICENSES AND SUPPORT

Quantity: 1,384

General features:

1. Management console to provide management functionalities
2. Module for physical desktops and laptops
3. Module for virtualized environments. An antimalware product created especially for a virtualized environment

#### Management Console:

1. Installation and Configuration
  - a. Single virtual appliance (virtual image) with all roles/services
2. General features:

a. Flexible licensing (separate key for every service allowing different number of licensed objects and different expiration dates, history of all entered keys).

### 3. Dashboard for monitoring and reporting

a. Based on configurable portlets, where it can be specified the name, type of report, target of the report, specific options for every report type.

### 4. Network Inventory - security management tasks:

- a. Integrates with Active Directory. Can define the synchronization time interval.
- b. Remote deployments and uninstall

### 5. Policies

- a. Single template for every service.

## Protection for Physical Workstations and Servers

### 1. Management and remote installation

- a. The installation on machines from a remote location will be performed using an existing installed client in these locations to minimize WAN traffic.
- b. Have the possibility to select which client will discover the other computers in the network

### 2. The main features and functionality of antivirus and antispysware module

- a. Automatic real-time scanning can be set to not scan archives or files larger than "x" MB file size be defined by the administrator of the solution, can also be defined the maximum depth (16 levels) for scanning.
- b. In order not to overload system resources, the antivirus product can be configured to use in the cloud scanning and partially, the local scanning. More that that, if the system doesn't have enough hardware resources, the antivirus can be configured to offload the scan to a scanning server.

### 3. Data Protection

- a. Allows blocking confidential data (pin card, bank account, etc.) for both HTTP and SMTP, by creating specific rules.

### 4. User Control

- a. The console will have integrated a user control module with the following features:
  - Blocking Internet access for specific clients or client groups.
  - Blocking access to certain applications.
  - Blocking internet access for certain periods of time
  - Block web pages that contain certain keywords
  - Allow acces to specific web pages specified by the administrator.
  - Restricting access to certain websites by some predetermined categories (e.g. online dating, violence etc.)

## Security for Smartphone Devices

### 1. Features:

- a. Allows associating a device with an Active Directory user.
- b. Installation is done by sending an email to user, with installation details.
- c. Device activation to management console will be performed using a QR code.

## System Requirements:

### 1. Workstation operating system

- a. Windows 8.1, Windows 8, Windows 7, Windows Vista (SP1), Windows XP (SP3), Mavericks (10.9x), Mountain Lion (10.8.x), Lion (10.7.x)

### 2. Server operating system

- a. Windows Server 2012 R2, Windows Server 2012, Windows Server 2008 R2, Windows Server 2008

Comprehensive protection for desktops, laptops, servers and mobile devices plus security and anti-spam for exchange mailboxes

Endpoint protection

management server software centralized deployment

## TECHNICAL SUPPORT

- 1. Installation and configuration of the management software
- 2. Installation and/or .dat file update for central office target installations
- 3. 24x7 phone, email and remote support
- 4. 8x5 onsite support
- 5. Quarterly visit and systems mainteannce check-up
- 6. training on the installation, deployment, administration and management of the antivirus software to be scheduled by MISS

## DELIVERY PERIOD

60 days from the date of receipt of Notice to Proceed.

**MODE OF PAYMENT:**

Lump Sum. Upon delivery of software licenses certificate and complete installer media.

**VENDOR REQUIREMENTS**

1. Vendor must have at least five (5) years existence in IT business
2. Vendor must be a certified partner for the product being offered
3. Vendor must have at least three (3) certified engineers for the product being offered.
4. Vendor must be actively registered in the PhilGEPS
5. Must have completed similar project in the last three (3) years
6. Must have completed single similar contract amounting to at least 50% of the ABC
7. Joint venture is not allowed
